About Me

Computer Science graduate with a strong interest in Applied Cryptography and Privacy-Preserving Computing. My academic journey has led me toward exploring how cryptographic techniques can enable secure computation on sensitive data while reducing unnecessary data exposure. I am particularly interested in the intersection of cryptography and AI/ML, with the long-term goal of developing practical privacy-preserving systems that maintain data utility while protecting the confidentiality and security of individuals and organizations.

Research Interest

Fully Homomorphic Encryption
Secure Multi-Party Computation
Privacy-Preserving Machine Learning
Zero-Knowledge Encryption

Education

Christ(Deemed to be University) Delhi NCR, India 2023-2026

- Bachelor's of computers application (BCA)

Saint Mary's Intermediate College Bikkawala Bijnor 2021-2023

- Physics, Chemistry, mathematic(PCM)

Research experience

Book Title- Sustainable Artificial Intelligence for Industrial Automation.
Part of Book Series - Frontiers of Artificial intelligence, Ethics and Multidisciplinary Applications
Chapter-12: AI for Industrial Information Retrieval and Processing
Publisher- springer nature Singapore Pte Ltd. Aug 2025 - dec 2025

Projects

Work experience

CreativeBit Services Pvt. Ltd. Ranchi, India Jan 2026 - march 2026

- **Front-End Developer**

Skills

Languages: Hindi , Khadiya, English, korean,
Programming Languages: C/C++, Python, Java,
